Executive Team Updates

Big changes are underway! We recently held our internal elections, and with that comes a mix of bittersweet goodbyes and exciting new beginnings. While we're sad to see some of our amazing team members step down, we're incredibly proud of all they've accomplished and can't wait to see what they do next.

A huge congratulations to those who were re-elected and to those stepping into new leadership roles – your dedication continues to inspire us. We also have several positions still open, so stay tuned for more details on how to get involved. While we're between transitions, there won't be an Exec Feature of the Month this time – but don't worry, we'll be back next season with some fresh new faces to spotlight!

In the meantime, please keep an eye out on social media as we begin onboarding new exec members!. Stay connected – there's a lot to look forward to!

Article of the Month

This article looks at B.C.'s proposed ban on owning, breeding, and selling exotic cats like servals, caracals, and ocelots. While big cats are already restricted, these smaller wild species have remained legal – until now. The new rules would allow current owners to keep their pets with a permit, but no new ones could be brought in or bred. It's a thought-provoking read about where we draw the line between pets and wildlife, and how regulations are evolving to reflect that.
